

IMPORTANT WARRANTY AND RETURNS INFORMATION

Buying a kegerator is a big investment, and we want to help ensure that it's a perfect fit for your home.

When your appliance arrives, we encourage you to take the following steps:

1. Inspect the box for damages. If damage is obvious, write this on the trucker's delivery order and contact us immediately.
2. Upon removal of all packaging, inspect the appliance. If it arrived damaged, contact William's immediately at 800-759-6025 or service@williamsbrewing.com so we can arrange for a prompt resolution.

If the kegerator you ordered is not defective, yet you'd like to make a return:

You may return your kegerator for a refund within 60 days of delivery so long as it hasn't been installed, and it is returned in its original packaging and on its original pallet. Simply contact William's prior to making your return. We will contact the trucker and arrange for pickup from the front of your house, assuming the kegerator is on a pallet in its original foam and cardboard box and you are present to hand over delivery.

Truck freight of \$250.00 will be deducted from the final refund to cover pickup and return shipping to Williams. Return credits will be issued within 24 hours once the appliance is received.
